Objective of meeting:

- Start oblig 5 and complete activity 1 and 2.

Discussed:

- Activity 1 - Organise the team. Used the previous retrospect as input for the various points. All in all there hasn't been a lot of change from previous iterations.
- Activity 2 - Clarify requirements.
 - Construct a todo-list based on the requirements
- Which functionality we wish to focus on implementing this iteration:
 - Multiplayer over a network
 - Animations (as well as increasing the visual design overall / sounds etc)
- Delegated tasks, check TODO.

Moving forward (Thursday meeting):

- Discuss what we have done so far (activity 3).
