

Summary
08.03.2018

Attendance:

Jonas Triki
Sofia Hestenes Eika
Jonas Wagle
Eirin Sognnes
Elise Fiskeseth

Written by: Sofia

Objective of meeting:

- Assemble and organize the individually done work of task two
- Build a backlog so that we can start to implement our system
- Collaborate on and delegate work for task three. Make a document of work delegation.

Discussed:

Discuss if the work done by each individual is satisfactory and corresponding.

Discussed how to implement our backlog according to our functional requirements and user stories.

Discussed how to achieve non-function demands.

Made sure that everyone's API works with the implemented class structure of our repo.

Discussed the folder and code structure of our system.

Discussed to how to delegate the work in task three. Made document.
