

Summary

12.02.18

Attendance:

Jonas Triki

Paraneetharan Sabaratnam

Sofia Hestenes Eika

Jonas Wagle

Eirin Sognnes

Stian Fagerli

Marianne Fuglestad

Written by: Sofia

Objective of meeting:

- Produce a first version of the domain model for the chess application
- Part four of the obligatory assignment

Discussed:

- That we plan to organize in subgroups based on previous experience and also the desire of each member
- More specifics on division of work and organization details
- How to organize and use git (two branches)
- How to handle unexpected and problematic situations
- How to organize our documents internally in git
- Responsibility for conversion to appropriate (e.g. latex) documentation:

User manual - Marianne

Team plan - Jonas T

Product specification- Paraneetharan

Process and project plan - Eirin

Retrospective summary - ?

Power point - Sofia

Summaries - Marianne

Class diagram - Jonas W

Ghost slides - Stian

- A plan on when and how we will collaborate on the remaining part of the assignment
